Professional Manufactory
In Floss Toothpicks Baby Products

本公司建立於1980年，我們有超過60位工作同仁，通過 ISO 9001:2000國際品質認證，並且每年營業額超過200萬美元，我們有30條全自動生產線，廠房面積超過2000平方公尺。

本公司主要產品包括牙線、牙線棒、牙縫刷和其他牙齒保健用品，本公司有多樣化的產品式樣供客戶們選擇各種不同的包裝以符合客戶的需要，及多年OEM、ODM服務經驗，另外我們還有其他嬰幼兒用品包括痂子粉盒、奶粉盒、固齒器、訓練杯、吸鼻器等系列用品。

本公司秉持著以高品質和最好的服務為我們的目標，並以不斷的創新持續的改善以提高我們產品的品質和技術，提供完美的產品和服務品質是我們的榮譽和追求的目標。

Our company was established in 1980. We now have over 60 workers on staff and have been certified with ISO 9001:2000. The annual sales turnover has reached USD \$2 million. We have 30 fully automatic manufacturing production lines and our factory's production area is over 2,000 Square Meters.

Our major dental products include dental floss, dental floss toothpick, interdental brush and other dental accessories. We have a wide variety of product styles and packagings to meet the needs of our many customers. We have had experience of providing OEM、ODM service for year. Additionally, our secondary product line is for infants and babies. Such products are powder containers, milk powder containers, baby teethingers, training cups, Nasal Aspirator etc.

The highest quality and best service are our business goals. We are constantly innovating and enhancing our manufacturing technologies. We develop all of our automatic manufacturing equipment "in-house". It is our honor to make the perfect product for you.

Dental floss series

PTFE TAPE

MINT / WAX

1. 特殊PTFE材質牙線可輕鬆而不費力地滑入齒間及齒齦底部縫隙，有效地清除牙菌斑。
Uses a special material PTFE floss which slides effortlessly between teeth and below the gum for effective plaque removal.
2. 單線結構牙線格外牢固且抗斷裂。
Mono-filament construction is exceptionally strong and break resistant.
3. 可依客戶不同需求上蠟、或添加氟化物等。
Available to coat, to wax or to fluorinate according to customers' needs.

NYLON 66

MINT / WAX

1. 獨特的纖維材質有效地清除齒間牙菌斑。
Unique fiber effectively removes plaque between teeth.
2. 超細及牢固的牙線可抗斷裂。
Thin but strong floss resists breaking.
3. 可依客戶不同需求上蠟、或添加氟化物等。
Available to coat, to wax or to fluorinate according to customers' needs.

牙線穿引器 Floss Threaders

多功能的尼龍線圈可幫助患者，穿過大多數其它產品無法到達的縫隙：牙橋下，牙冠之間，在矯正齒列和植入管器具附近。

Versatile NYLON loop helps patients thread floss through spaces where most other products cannot reach: under bridges, between connected crowns, and around orthodontic and implant appliances.
